# WILLIS AILS

By Butler Willis

Something should, definitely be done about it!

We mean this closing of fillage stations at seven o'clock in the evening. It's working a hardship on occasional travelers. We know because we are the occasional traveler that has suffered.

Monday afternoon it was necessary to make a hurry-up trip to Miami to consult with an airplane, for which we volunteered. So that the long, tiresome trip back to Belle Glade wouldn't have to be made alone after depositing the passenger on the plane we recruited Belle Glade's leading dentist, Dr. Willis. Arriving in Miami we filled up with gas ten minutes ahead of the deadline and then went to the airport to find the passenger had departed at seven ten.

The dentist and the writer, both at present enjoying the status of "summer bachelors" and that the long trip back to West Palm Beach would be enjoyed in the early evening coolness. A short stop was made at the noon sign advising passing motorists of the "wars" dispersed there. It was necessary to walk next door to purchase two cold cola which is an "essential" accessory to the "wars." That's where we made the first mistake. Just enough "accessory" to reduce Ft. Lauderdale with enough "wars" to get all the way home. But the "accessory" didn't last to Fort Lauderdale and then is when we first became conscious of the unfairness of closing-filling stations at seven in the evening.

Other action taken at the meeting including the appointment of Mrs. J. T. Harris to act in place of her husband on the election, here and there for the coming city election.

## W. M. U. ORGANIZES SEWING CLUB

The members of the W. M. U. of South Bay took the lead in organizing a Red Cross Sewing Club. Mrs. W. M. U. of South Bay took the lead in organizing a Red Cross Sewing Club. Mrs. W. M. U. of South Bay took the lead in organizing a Red Cross Sewing Club.

Anyways we finally made Ft. Lauderdale under the handicap of being with another "war" where we paused to take on some food. That's where the writer took a lesson in the technique of approach. A beautiful waitress came to the table. To him I hereby offer my hat as one of the world's best.

After considerable persuasion, the waitress and numerous false starts the return trip to Belle Glade was resumed with another "accessory" which was fastened-out to last to West Palm Beach.

Upon arrival in West Palm Beach it was unanimously recommended that a more efficient opportunity to avail ourselves of the blessedness of our "summer bachelors" status might be obtained. The writer and his friend agreed that the door should not be slammed in the face of opportunity when the "bachelor" was so definitely audible. We succumbed to the urge and hastened to one of the better known night spots.

Upon arrival there we found to our utter dismay that the floor show was still an hour distant. This wait proved constant. (Continued on page 4)

## THINGS THEY'VE LEARNED

Helpful Information Given In Question And Answer Form

**Question:** What makes early seedlings damp-off?  
**Answer:** Damp-off of all kinds of seedlings is caused by fungi in the soil. Causal seedlings are particularly susceptible to a fungus with a very long name, Rhizoctonia. The fungus which causes it is not in mature celery and is not able to damp-off the seedlings. This fungus is called Rhizoctonia.

The fungi causing damping-off are minute organisms living in the soil which can penetrate the seedling. These particularly fungi are so common because they are so small in structure they are not visible to the naked eye.

## Survey Of Local Water Works Will Be Made At Once

Town Commission Accepts Contract With Dr. A. P. Black

The town commissioners voted Wednesday night at their regular meeting to accept the contract as drawn by the town attorney employing Dr. A. P. Black of Gainesville and C. K. Dodd, civil engineer of Sarasota, to make a complete survey of the local municipal water works to determine the amount of improvements and additions necessary to the plant and locate a source of water supply in the lake.

The contract calls for a cost of \$1,500 for the survey to be paid \$250 when the contract is signed and \$250 monthly until the work is completed. This includes the cost of obtaining and analyzing water samples from various spots in the lake and a payment of four to six weeks to determine the most logical location for an intake in the lake for a source of supply for the town.

Dr. Black is recognized as one of the nation's outstanding authorities on water supply and the South Bay Growers and Distributors local vegetable pre-cooling plant adjacent to the railway tracks. In any case the pre-cooling plant will be rebuilt between the former Allison packing house and the South Bay Growers and Distributors local vegetable pre-cooling plant adjacent to the railway tracks. In any case the pre-cooling plant will be rebuilt between the former Allison packing house and the South Bay Growers and Distributors local vegetable pre-cooling plant adjacent to the railway tracks.

## New Negro School

The state road department crew started last week to build a bridge across the road south of the new consolidated colored school which is to be built on an eight-acre tract recently acquired by the County Board of Public Instruction for this purpose. A four room school building, and a new playground will be built on the site. The new school will be built on the site of the old school, which was burned down in 1917. The new school will be built on the site of the old school, which was burned down in 1917. The new school will be built on the site of the old school, which was burned down in 1917.

## New Cattle Venture

The Aspey Brothers, located on the north-eastern end of Everglades Island, have purchased 175 head of 2-year-old range steers from O. Bronson of Kissimmee, one of the big range cattlemen of Florida. The Aspey's have enclosed 175 acres under fence, an acre for each animal, and will fatten them for market. They expect the cattle to put on weight at an average rate of one pound per day for the first three months, and then sell the herd for slaughter. The cattle were brought by actual weight and the profit will be in the weight increase. Hurricane Insurance has been taken out.

## School Improvements

Work started this week on the addition to the South Bay school which will include the school cafeteria and boiler room for the heating plant which will heat every room in the school. The school has been let to Don Hillier and Sons of Pahokee, who moved their tool house and equipment to the school grounds last of the week.

Piling has been brought in for the foundation for the new addition which will take room for a new coat of paint inside and out.

## New Station

A. E. Kirkman, local Sinclair Refining Company agent and Mayor of Belle Glade, is building a new service station at the intersection of the new road 25 and San Benito street. The building is of the latest modern design and will be equipped with four electric pumps. J. F. Tippet of Clewiston is contractor on the job.

## DYKE BEING BUILT TO ENCIRCLE ISLAND

Ritta Island is being diked by growers on the island to protect crops from flooding by high water levels and wind waves from the lake. C. E. Thomas has just completed a dike around the east and north sides of the island. The Thomas dike is 40 feet wide at the base, 20 feet wide at the top and 6 feet high. It is three miles long. Bryan and Holloway built the Thomas dike and are now starting on a similar dike for R. Y. Crech which will be two and one half miles long and join the Thomas dike at either end, thus completing a dike entirely around the island. The work will be completed in September according to present plans, which will be in ample time for the coming season.

## South Bay Packing Plant To Enlarge

The South Bay Growers and Distributors local vegetable pre-cooling house is being enlarged to handle the increased business. The new building will be built on the site of the old building, which was burned down in 1917. The new building will be built on the site of the old building, which was burned down in 1917. The new building will be built on the site of the old building, which was burned down in 1917.

The lot is approximately 175x250 feet and is located on the corner of Main street and the Chosen Road just north of the Hillsboro canal. Plans for the building are being prepared by an architect for the consideration of the directors. It is considered likely that a drive-in window will be a feature of the new building. No plans have been adopted but are being prepared and bids for construction are being asked when this is done.

## Dance Party

Mrs. Mike Murphy entertained home with an informal game and dance party honoring her niece, Miss Charlotte Perkins, of Allendale, S. C. Miss Sara Albright was awarded the prize.

## Birthday Party

Friends of Charles Betner, son of Mr. and Mrs. Lou Betner, honored him with a surprise party Saturday at Lake Worth Casino in celebration of his fifteenth birthday anniversary.

## Red Cross Knitting Circle To Meet Monday

The Red Cross knitting circle, now being sponsored by the Everglades Business and Professional Women's Club will meet Monday night at the home of Mrs. James Scullen. All knitters are urged to attend if possible as pictures will be taken of the group.

## Crash Victim

Buster Trimble (wearing cap) well known former local flyer, was killed last week near London, England, in a plane crash. He is pictured here with Ernie Milap of Memphis, Tenn., who worked with Trimble.

## Option On Site For New Bank Building Is Being Exercised

Tentative Location To Be In Walker-Evans Subdivision

The building to be erected by the proposed new Florida National Bank at Belle Glade has been tentatively located in the Walker-Evans subdivision just across the bridge from the post office and the main business section of the town. The location provides ample space for the building and parking space and is believed to be best situated for merchants and the packing house district of the town.

According to C. C. Cobb of the Florida Bank and Trust Company at West Palm Beach an option on the property was secured some time ago in anticipation of the operation of a bank here. Since the clearing of the land has been granted and the bank seems to be a certainty steps have been taken to exercise the option and an architect is being brought down for the prospective buyers.

The lot is approximately 175x250 feet and is located on the corner of Main street and the Chosen Road just north of the Hillsboro canal. Plans for the building are being prepared by an architect for the consideration of the directors. It is considered likely that a drive-in window will be a feature of the new building. No plans have been adopted but are being prepared and bids for construction are being asked when this is done.

Mr. Cobb stated that no delay in securing materials for the building is expected with the possible exception of the structural steel. Essential fixtures and other equipment were said by Mr. Cobb to be available immediately. The bank is scheduled to begin active business operations not later than December 1st.

## ROAD REPAIRS TO BE MADE SOON

Twelve cars of rock are on the truck at South Bay to be used for repairs on State Road 25 between South Bay and Lake Harbor. The rock will be mixed with sand and tar in a bituminous mixer and trucked to the location. It will then be spread by the state road department crew under the supervision of foreman Louis Hancock and rolled flush with the pavement thus patching wherever the pavement has become uneven.

## Celebrate Golden Wedding Anniversary

Mr. and Mrs. J. S. Scogin of Lake Harbor, celebrated their golden wedding anniversary on Sunday, their daughter, Mrs. H. R. Layfield, entertaining at a reception in their honor. Mrs. Scogin was born in England, he in Pennsylvania, they were married on August 9, 1891, at Greenville, Ga. They have four children, Mrs. Scogin was married in 1925, spending their winters for several years at Lake Petersburg. They came to St. Petersburg in 1928, where they were during the hurricane of September of that year. They are active in church and community affairs and are much loved by all who know them. Many friends called to pay their respects bringing many useful and pretty gifts such as bedspreads, electrical fixtures, rugs, dishes, household linens and ornaments and one five dollar piece.

## Officers Elected by Young Baptists

The Palm Lake Association of the young people Baptist church held their annual meeting Tuesday night with Mrs. Lester Clarke in charge of the devotional service on the program.

Donald Weeks presided over the business session when the following officers were elected: President, Donald Weeks; director, Claude Jones of Pahokee, assistant director; A. H. King of Clewiston, adult leader; assistant, Miss Elizabeth of Pahokee, young people's leader; Doyle Taylor of Belle Glade, intermediate leader; Mrs. William of South Bay, young people's elder; Geraldine Garrett, Pahokee, story hour; Miss Nellie Cook, Belle Glade, secretary-treasurer; Miss Elizabeth Cunningham, Belle Glade, pianist; J. W. Jones, Pahokee, choir leader; Rev. S. B. Jordan of Clewiston, Hymn leader.

## Sewing Circle Meets

The Red Cross Sewing Circle met at the Community Church sewing room at South Bay this week and accomplished quite a number of new garments for the Red Cross.

## Former Local Pilot Killed In Plane Crash In England

Many friends of Walter L. (Buster) Trimble, well known and very popular aviator of Belle Glade, were shocked to learn last week that he was listed among the casualties in a bomber crash near London, England, in which 21 other pilots lost their lives for the cause of democracy.

Almost a year ago Mr. Trimble piloted one of the city owned bombers from Canada to England, and enlisted with the British Transport Auxiliary. Since that time he has been engaged in "ferrying" planes from the factories and assembly plants to the hangars at the base of operations. His last assignment was to fly a new bomber to the assembly plant after having flown, their planes to the firing line.

Mr. Trimble has spent the greater part of the past ten years in this section where he was engaged in crop dusting, commercial flying and as an instructor. His home was in Fort Worth, Texas, where his mother, Mrs. Susie C. Trimble, still lives. While here he lived at the home of Mr. and Mrs. W. H. Goe in Miami. He expressed his intention of remaining in the service for the duration of the war but added that he would be home when it was all over there.

His rank in the RAF was equivalent to that of a first lieutenant in the U. S. Army Air Corps.

## Conservancy Dist. Maintenance Work Nears Completion

Drainage Ditches and Canals Being Cleaned

The annual clean out work on canals and ditches, which is a part of the maintenance program of the South Florida Conservancy District, is now approximately 10 per cent done, according to William Jeffries, secretary of the district.

This year the work was somewhat heavier and consequently more expensive than heretofore, because the early rains and extreme heat have brought about an abnormal crop of weeds and grass. An expenditure of about \$20,000 will be necessary this year to complete the job. This will include repair work on 100 feet of the Bare Beach dike and the removal of hyacinths, weeds and grass from 89 miles of the Bare Beach dike, and ditches, thus affording more efficient water control over 31,000 acres of the richest and most productive farming lands in the Everglades.

The work is distributed over each of the five pumping units, including the South Bay, Bare Beach, Lake Harbor and Lake Harbor. A large part of the work is done by hand, employing a new crew of 35 negroes who work under the direction of an overseer. In other sections where this is not the most economical method, draglines are employed, instead.

**Have You Seen the New**

**MORGAN PUMPS?**

This new pump is now being installed by many of the leading farmers in the Glades section who state that it gets remarkable results.

Why don't you see F. P. Morgan at the Belle Glade Machine Works and arrange to have one of these pumps installed on your farm for irrigation? You will be amazed at the results.

Miss Elizabeth Sasser of Valdosta, Ga., is visiting her cousin, Miss Louise Hollingsworth.

## THINGS THEY LEARNED

(Continued from page one)  
sew bed treatment. We like the formaldehyde treatment of the soil before the seeds are sown. The use of 150 gallons of a 1 to 50 solution of commercial formaldehyde in water will help very materially. This solution should be sprinkled on a 150 foot seed bed a week before the seed are sown. A less expensive treatment consists in drenching the plant bed with a ceresan solution after the plants are growing. For this purpose 2 1-2 ounces of Ceresan may be used to each 50 gallons of water. Very favorable results were obtained with tear gas as a seed bed disinfectant last year and the experiments are being continued now.

## WILLIS WAILS

(Continued from page 1)  
pletely wrecking to our financial stability and our equilibrium. But we made it, and at the time would have sworn that the show was superb. Today we aren't so sure. Anyway we arrived home just thirty minutes behind the milkman.

Do is swell company but one of the world's worst relief drivers. The attempt to write this column has truly been an effort to please bear in mind that today I don't feel very well, and I'm still for more coco colas.

MRS. CORNELIA SCOTT announces the Opening Of Her Studio in Belle Glade on 3rd St. Lessons in vocal and piano may be had by appointment.

## They'll Be Harder To Buy

On September 1st, just nine days from now, there will be a complete change made by all finance companies handling time payment contracts to cooperate with the National Derense program.

## Larger Down Payments Shorter Term Contracts

will go into effect on the above date. If you are contemplating the purchase of any major electrical appliance you should

## BUY NOW

With the curtailment of production of all major appliances together with the new purchase plan going into effect these commodities will definitely be harder to buy after September 1st.

# ANNOUNCEMENT

IT is the desire of the members of the Florida National Group of Banks who participated in the movement to obtain a charter for the Florida National Bank at Belle Glade that full credit be given those citizens of Belle Glade, who under the splendid leadership of Mayor Kirchman, W. P. Hill, Mrs. Ruth Wedgworth, H. L. Haney as well as several other citizens, who have turned hope into reality.

We are happy in being associated with business in the thriving town of Belle Glade and its vicinity.
